

How To Create a Button on your Smart Phone

For the Sciencetech Phone App

iPhone

1. Launch the “Safari” browser (by clicking the Home screen icon which looks like a compass).
2. Open the web page “www.sciencetechclub.org/phone.asp”.
3. At the bottom of the page, tap the icon which has an arrow coming out of a box.
4. Select “Add to Home Screen” on the dropdown.
5. Enter a name for the new shortcut icon button (for example, “SCIENTECH”). Tap “Add” or “Done”.
6. The new button now appears on your Home screen. Drag it wherever you wish.

Android

1. Launch the “Chrome” browser.
2. Open the web page “www.sciencetechclub.org/phone.asp”.
3. At the upper right side of the page, tap the icon which has 3 dots,
4. Select “Add to Home screen” on the dropdown.
5. Enter a name for the new shortcut icon button (for example, “SCIENTECH”). Tap “Add”.
6. The new button now appears on your Home screen. Drag it wherever you wish.
